

XiteBio® PulseRhizo®

LIQUID INOCULANT FOR PEAS, LENTILS & FABA BEANS

HEALTHIER PLANTS. BETTER YIELDS.

XiteBio® PulseRhizo® for peas, lentils & faba beans is a premium liquid inoculant with Advanced Growth Promoting Technology (AGPT®) that delivers better plant vigour and higher yields. **XiteBio® PulseRhizo®** helps farmers produce successful pea, lentil & faba bean crops.

WHY USE XITEBIO® PULSERHIZO®?

- Innovative, easy-to-use, all-in-one liquid formulation
- No sticking and reduced bridging of seeds
- Performance is equal to or better than leading granular products
- Invigorates native rhizobia to work efficiently with introduced rhizobia, without trying to outcompete what is already in the soil
- Superior product provides over 7.2×10^8 viable *Rhizobium leguminosarum* biovar *viceae* cells per gram
- Encourages greater root nodulation and boosts N-fixation
- Lasts up to 15 days on seed
- Shelf life: 2 cropping seasons
- Compatible with most seed treatments and some fertilizers (see compatibility chart)

APPLICATION RATE

On-Seed:

75 mL/27 kg or 2.5 fl oz/bu
(2.5 fl oz/60 lb or 2.1 fl oz/50 lb)

In-Furrow:

250 mL/ac or 618 mL/ha
(at 12 in or 30 cm row spacing)

CASE SIZE

1 x 12.0 L (405.6 fl oz)
4 x 3.0 L (101.44 fl oz)
